Modulio tikslas

Išsivairinti valdymo metodologinius principus.

Aim of module

To master Management methodological principles.

Suteikiamos žinios ir gebėjimai

Suteikiamos žinios apie vadybos teorijos turinį, ugdomi gebėjimai ją taikyti sprendžiant įvairias socialines ekonomines problemas.

Provided knowledge and skills

Knowledge on the content of Management theory, and the development of the abilities of the theories' application is provided in order to be able to find a solution for different social-economical problems.

Modulio anotacija

Vadybos teorijos kurso metu pateikiama vadybos teorijos esmė ir raida, šiuolaikinės kryptys. Taip pat nagrinėjama valdymo sprendimų esmė, šiuolaikiniai modeliavimo metodai, sprendimų paramos sistemos. Analizuojama sistemų teorija, valdymo problemų sprendimo interpretacija sistemų teorijos požiūriu, valdymo metodų turinys, jų taikymo specifika sprendžiant įvairias vadybos problemas, valdymo funkcijų ir valdymo uždavinių turinys įvairiose srityse bei aptariamos vadybos perspektyvos.

Module annotation

During the course of Management Theory the essence of management theory is provided, alongside with its development and modern directions. In addition, the essence of management decision making is provided with modern simulation methods and decision support systems. System theory is analysed, including the interpretation of the management problem solution on the view of system theory and the content of management methods, the character of its implementation making decisions on various management problems, the content of management functions and management tasks in the different areas are analyzed and the prospects of Management are considered.
