Vilnius Gediminas Technical University	Institute of Building Materials	Investigation of impact of fire retardants on flammability of thermal insulating structures	Dr Saulius Vaitkus	1	–	–	–	–	–	Nerijus Augaitis
	Institute of Building Materials	Creation, analysing of structure and properties of water permeable cement composite	Dr Jurgita Malaiškienė	1	–	–	–	–	–	Vilma Banevičienė
	Building Materials and Fire Safety	Cementions systems modified crushed and grind glass creation, structure and properties investigation	Asoc. Prof. Dr Džigita Nagrockienė	1	–	–	–	–	–	Kęstutis Barkauskas
	Building Materials and Fire Safety	Facade plate flammability properties dependency on organic material amount used in plate structure formation	Asoc. Prof. Dr Ramunė Žurauskienė	1	–	–	–	–	–	Tomaš Veliseičik
	Mechanical and Mechanical Engineering	Research of improvement of metals surface hardening and stiffness by laser treatment	Assoc. Prof. Dr Nikolaj Višniakov	–	–	1	–	–	–	Oleksandr Kapustynskiy
	Mechatronics, Robotics and Digital Manufacturing	Saccharomyces cerevisiae as biocatalyst in biofuel cells	Dr Inga Morkvėnaitė-Vilkončienė	–	–	1	–	–	–	Justė Rožėnė
