

Institution	Department	Themes	Prospective supervisor	A number of PhD places						Name, surname of admitted to doctoral studies in 2018 years
				PhD positions funded by the Lithuanian state budget		PhD positions funded by the EU structural funds		PhD positions funded by PhD student's personal finances or by the companies, or both PhD student's and companies		
				Study mode		Study mode		Study mode		
				Full-time studies	Part-time studies	Full-time studies	Part-time studies	Full-time studies	Part-time studies	
Vilnius Gediminas Technical University	Automobile Engineering	Optimization of performance indicators influencing factors of compression-ignition engines, fuelled with second generation biodiesel and biogas mixtures	Assoc. Prof. Dr Alfredas Rimkus	1	–	–	–	–	–	Saulius Stravinskis
	Mobile Machinery and Railway Transport	Modelling and reduction methods of crushed stone segregation used in transport infrastructure during production and transportation process	Prof. Dr Habil. Henrikas Sivilevičius	1	–	–	–	–	–	Mantas Makulavičius
	Automobile Engineering	Research on ecological and energy indicators of animal-derived non-food fats and diverse blends of the first and second generation biodiesel in the compression-ignition engines	Assoc. Prof. Dr Jonas Matijošius	1	–	–	–	–	–	Oleksandra Shepel
	Roads	Research and assessment of public transport influence on road safety	Assoc. Prof. Dr Vytautas Grigonis	1	–	–	–	–	–	Iveta Stanevičiūtė
	Mobile Machinery and Railway Transport	Large scale crew scheduling optimisation problem solutions using optimisation and simulations algorithms	Prof. Dr Habil. Marijonas Bogdevičius	–	–	1	–	–	–	Gediminas Kalnutis
Klaipėda University	Marine Engineering	Investigation and optimization of the indicative process of transport diesel engine converted to work on natural gas	Prof. Dr Habil. Sergejus Lebedevas	1	–	–	–	–	–	Linas Jonika
Aleksandras Stulginskis University	Institute of Power and Transport Machinery Engineering	Modeling and experimental research of the mobility an economic performances optimization of the trucks	Assoc. Prof. Dr Algirdas Janulevičius	1	–	–	–	–	–	Lukas Pudžiūvelis
Kaunas University of Technology	Transport Engineering	Aerodynamic and structural investigation of a morphing wing	Assoc. Prof. Dr Vaidas Lukoševičius	1	–	–	–	–	–	Martynas Lendraitis
	Transport Engineering	Influence of road coat disturbance for vehicle active safety	Assoc. Prof. Dr Vaidas Lukoševičius	1	–	–	–	–	–	Algirdas Laskys
	Transport Engineering	Universal rocket target: design and research	Prof. Dr Habil. Algimantas Fedaravičius	1	–	–	–	–	–	Karolis Jasas
