Bibliotekos ištekliai

IŠPLESTINE PAIEŠKA

Vadovaudamasi Lietuvos Respublikos Vyriausybės patelktais nurodymais VGTU biblioteka nuo kovo 13 dienos laikinai stabdo lankytojų aptarnavimą bei dalies paslaugų teikimą. VGTU biblioteka lankytojams bus uždaryta iki kovo 30 dienos.

Šiuo periodu jūs negalėsite pasiskolinti spausdintų leidinių. Kviečiame naudotis el. ištekliais.

Kilus klausimams dėl bibliotekos paslaugų ir darbo laiko, kreipkitės telefonu (8-5) 274 49 00 arba el. paštu biblioteka@vgtu.lt

Apie VGTU virtualią biblioteką (VGTU VB)

Tai integrali paieškos sistema, leidžianti atlikti informacijos šaltinių paiešką Vilniaus Gedimino technikos universiteto bibliotekos ištekliuose, prenumeruojamose duomenų bazėse, atviros prieigos elektroniniuose ištekliuose bei LST standartų kataloge. Paiešką galima vykdyti kitų Lietuvos universitetų bibliotekų ištekliuose arba Lietuvos akademinėje elektroninėje bibliotekoje (eLABa).

Norėdami ieškoti prisijunkite

Prisijungti prie VGTU VB gali visi Vilniaus Gedimino technikos universiteto bendruomenės nariai, naudodami savo institucinius prisijungimo duomenis.

Prisijungę prie VGTU VB galėsite užsisakyti bibliotekoje saugomus leidinius bei prasižesti leidinių išdavimo laiką; priskirti žymes paieškos rezultatams; įkelti į savo

VGTU VB pagalba

Siūlome pasinaudoti VGTU VB:

VG TU virtual library services

The VG TU Virtual Library (VG TU VB) is available to all users.

Virtual libraries provide immediate access to a range of resources not available in physical collections.

Only registered users have full access to VG TU virtual library services.

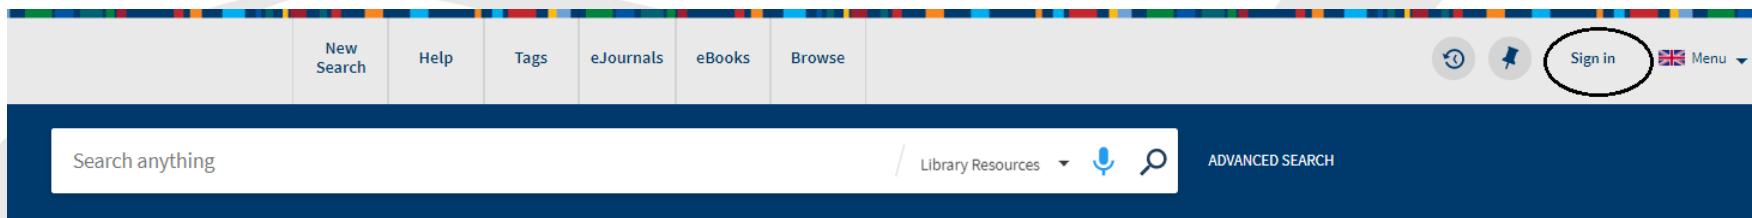

To use VG TU Library remote services and access database is accessible only from connecting from a home computer with VPN*(VirtualPrivateNetwork). VPN installation guide [>>>](#)

Registered users can:

- 1. Search for information;
- 2. Save desired publication to shelf, create / rename/delete directories, etc .;
- 3. Write comments, bookmark at document;
- 4. Upload information about a publication or other document to bibliographic information management tools EndNote, RefWorks;
- 6. Citation examples;

PRISIJUNGTI

A personal account

Personal information is accessed by clicking the link with the name at the top of the page. Here you can see your search history, saved electronic resources, control settings.

Be sure to sign out of the system when you're done, as this will protect the privacy of your search and settings.

Simple search

- Type one or more search words in the search box and click the search icon.
- Search words can include a title, author or editor, subject, ISBN, etc.

Search electronic resources

For searching electronic resources, select the electronic resources you are interested in the search box. For example Subscribed Databases or EBSCO Databases.

The screenshot shows the VGTU Virtual Library search interface. At the top, there is a navigation bar with links for "New Search", "Help", "Tags", "eJournals", "eBooks", and "Browse". Below this is a search box with the placeholder text "Search anything". A dropdown menu is open, listing several electronic resources: "VGTU Subscribed Foreign Science Journals", "Electronic Theses and Dissertations (VGTU eLABa ETD)", "Subscribed Databases", "EBSCO Databases", and "Lithuanian Standards Board (LST) Standards Catalogue". The "Subscribed Databases" and "EBSCO Databases" options are circled in red. Below the search box, there is a teal banner with a notice: "In accordance with the resolutions of the Government of the Republic of Lithuania, VGTU Library temporarily from March 13, VGTU library will be closed to visitors until March 30. You will not be able to borrow printed books during this period. Consumers are encouraged to explore elec... If you have any questions about library services or working hours please contact us via phone (8-5) 274 49 00 biblioteka@vgtu.lt". Below the banner, there are two columns of text: "VGTU Virtual library (VGTU VL)" and "VGTU VL Help". The "VGTU VL Help" section includes the text "We offer:" and a link "Help of VGTU VL website".

Search electronic resources

You can perform a simple search, but in your search results, select the information resources that have a description that provides a full-text document. You can open it by clicking on the submitted document.

CLEAR **APPLY FILTERS**

Advanced Search in VGTU Virtual Library

You can refine your search by selecting Advanced Search. Advanced search allows you to search for more complex information, combine different searches using logical operators, and filter information by document type, language, year.

The screenshot displays the search interface of the VGTU Virtual Library. At the top, there is a navigation bar with the following options: [New Search](#), [Help](#), [Tags](#), [eJournals](#), [eBooks](#), and [Browse](#). The main search area is divided into two sections: **Advanced Search** (highlighted in dark blue) and **SIMPLE SEARCH** (in light blue). The **Advanced Search** section includes a **Search Scope** dropdown menu set to **Library Resources**. Below this, there are two search criteria: **Any Field** (dropdown) **contains** (dropdown) **engineering** (text input), and **AND** (dropdown) **Any Field** (dropdown) **contains** (dropdown). To the right of these criteria are three filter dropdown menus: **Material Type** (set to **All items**), **Language** (set to **Any language**), and **Publication Date** (set to **Any year**). At the bottom left of the advanced search section, there are two buttons: **+ ADDA NEW LINE** and **CLEAR**. At the bottom right, there is a **SEARCH** button with a magnifying glass icon. Below the search criteria, a summary bar shows a green arrow pointing to **Any Field contains engineering**.

Narrowing your search

You can use logical operators to narrow your search (**AND**, **OR**, **NOT**).

Write these words in uppercase. Otherwise, the search engine will understand that you are looking for information resources with this words.

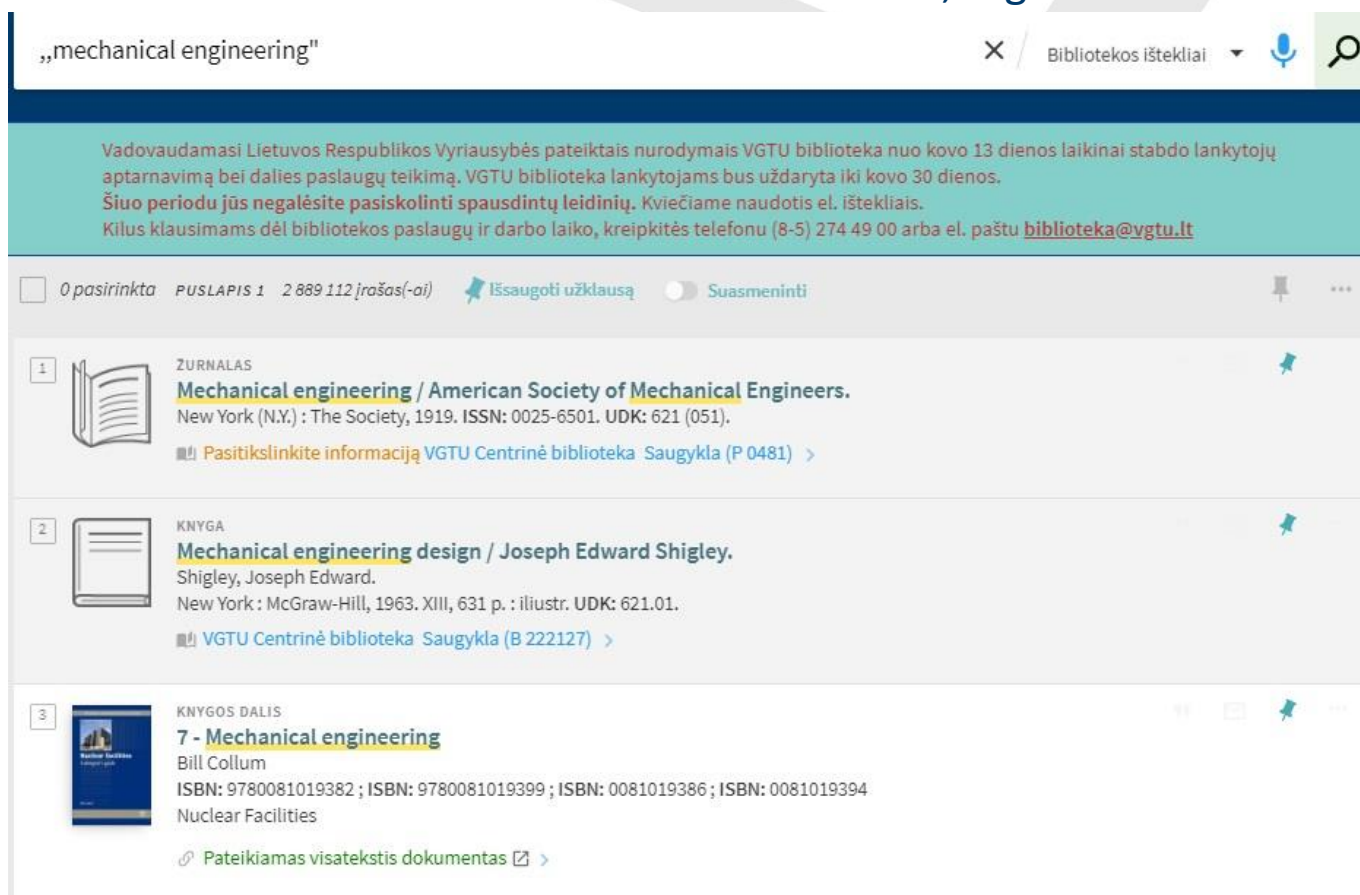

AND - in the system you will search the document with 2 or more keywords;

OR – you can use this logical operator to search for resources that contain at least one of the following words or phrases;

NOT – this logical operator will exclude resources from the search that contain certain words or phrases.

Search by phrase

If you enter a phrase in the search box, enter it in quotation marks, otherwise, the system will find resources that contain individual words, regardless of word order.

„mechanical engineering“

Personalized search

VGTU Virtual Library has the ability to personalize your search. Turn on the personalized search to find results that match your needs. In the window that opens, select the desired field of science.

The screenshot displays the VGTU Virtual Library search interface. At the top, there are navigation tabs: "New Search", "Help", "Tags", "eJournals", "eBooks", and "Browse". Below these is a search bar containing the text "engineering". To the right of the search bar are icons for "Library Resources", a microphone, and a magnifying glass, along with the text "ADVANCED SEARCH".

A teal banner below the search bar contains the following text:
In accordance with the resolutions of the Government of the Republic of Lithuania, VGTU Library temporarily refuses services to visitors from March 13. VGTU library will be closed to visitors until March 30.
You will not be able to borrow printed books during this period. Consumers are encouraged to explore electronic resources.
If you have any questions about library services or working hours please contact us via phone (8-5) 274 49 00 or via e-mail biblioteka@vgtu.lt

Below the banner, the search results are displayed. At the top of the results area, there is a status bar showing "0 selected", "PAGE 1", "22,284,421 Result(s)", "Save query", and a "Personalize" toggle switch which is circled in red. The "Personalize" toggle is currently turned off.

The search results are listed as follows:

Description	<i>Analytical Methods and Approaches for Water Resources Project Planning</i> is part of a larger study that was conducted in response to a request from the U.S. Congress in the Water Resources Development Act of 2000 for the National Academy of Sciences to review the U.S. Army Corps of Engineer's peer review methods and analytical approaches. This report reviews the Corps' analytical procedures and planning methods, largely in the context of the federal Economic and Environmental Principles and Guidelines for Water and Related Land Resources Implementation Studies, also known as the Principles and Guidelines or "P and G" (P&G), as well as the Corps' Planning Guidance Notebook (PGN).
