Baltic Virtual Assistants – various job opportunities in the finance department

At „Baltic Virtual Assistants” we are always open for new talent! We strongly believe in the value of individuality, so one of our top priorities is providing our team with the best conditions for personal and professional growth.

As a business outsourcing services company that was established to break what is considered the „normal” way of working, we create remote job opportunities that offer our team members flexibility and a chance to unlock their full potential while working with various international projects. Accordingly, at „Baltic Virtual Assistants” you will have access to our top finance and accounting experts, who are always open to share their knowledge, expertise, and advice with willing young professionals. And at times when you feel like you have „outgrown” your current position or need to try a different direction, we will provide you with opportunities within the company and guide you in the entire process.

During these challenging times, outsourcing services have become even more important to businesses around the world, so join „Baltic Virtual Assistants” in this momentum and help us in our continuous quest to innovate and provide the best business solutions to our clients.

Baltic Virtual Assistants – junior accountants

Kickstart your finance career at „Baltic Virtual Assistants”! For the past six years our company has been continuously growing and expanding into international markets, because we do not go by the established rules – we create our own. So, if you are passionate about finance/accounting and have the outside-of-the-box kind of mind, then you are just the person we are looking for! By joining our team of talents, you will have the opportunity to learn from some of the best experts in the market and, also, have the chance to make an impact of your own.

Some of your tasks would include:

- Collection, analysis, and processing of financial and administrative data.
- Bank reconciliations, accounts payable and receivable.
- Preparation of periodic reports.
- Liaise with the clients.
- Assist accountants on deliverable tasks.
