

How to publish a book in the digital age

Elsevier Book Author Workshop

October 18th, 2022

ONSITE: VILNIUS TECH, Auditorium 704

Sauletekio al. 11, Vilnius

ONLINE

This hybrid seminar will help researchers understand the key aspects of producing a book in the digital age, from developing your idea to publication.

TOPICS

- Why write a book?
- Why write for Elsevier?
- Overview of the book publishing process, from proposal to publication
- How to write a good book proposal
- Who to contact if you want to publish a book?
- Praise from our authors

Potential authors who are interested in writing or editing a book will have opportunity to give their ideas to Peter Adamson for advice.

SPEAKER

Dr. Peter ADAMSON, Senior Acquisitions Editor, Energy, Elsevier

Dr. Peter Adamson is an Acquisitions Editor in Renewable Energy with a focus on bioenergy, hydrogen and fuel cells, marine energy, hydropower, and energy efficiency. He has been in the publishing industry for 4 years, during which time he has been involved in the development and commissioning of reference works across Physical Sciences, Engineering, and Materials Science. Prior to joining Elsevier, Peter worked for 6 years as a researcher in Palaeobiology at the University of Cambridge, UK, where he received his PhD and was involved extensively in undergraduate teaching. He is passionate about using this experience to support the complex and diverse knowledge needs of the scientific community in the digital age.
