

Instructions on how to use VILNIUS TECH VPN on your mobile device

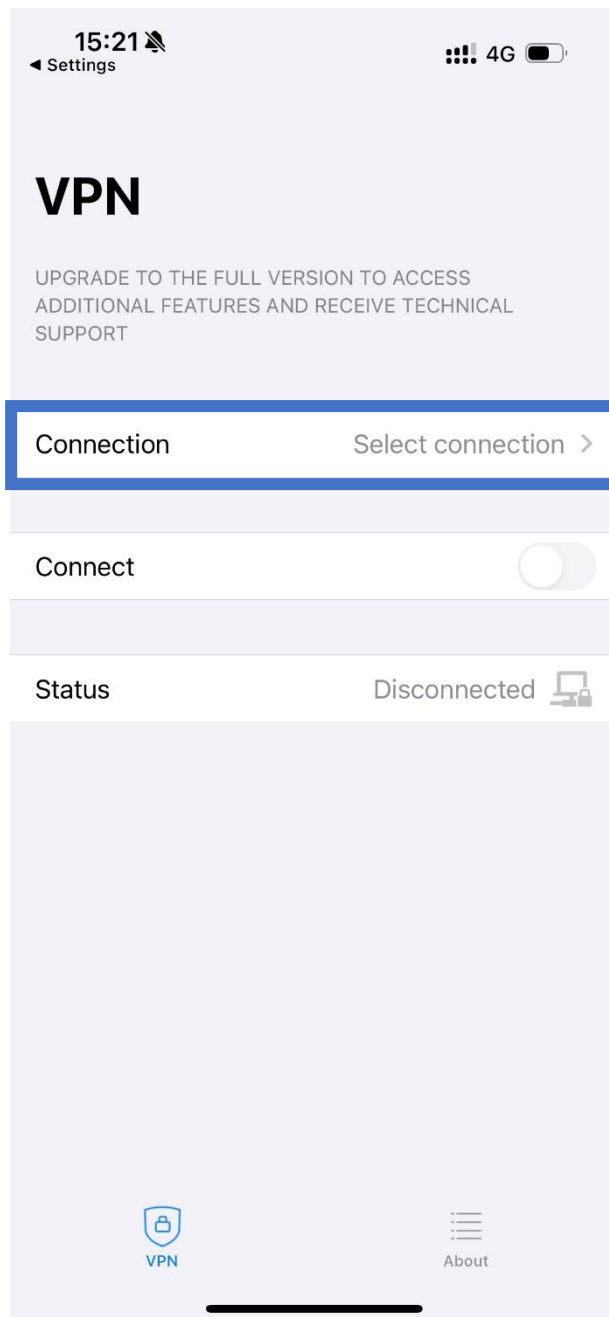

1. Go to the App Store app and search for "Forticlient vpn". Install the FortiClient VPN app.

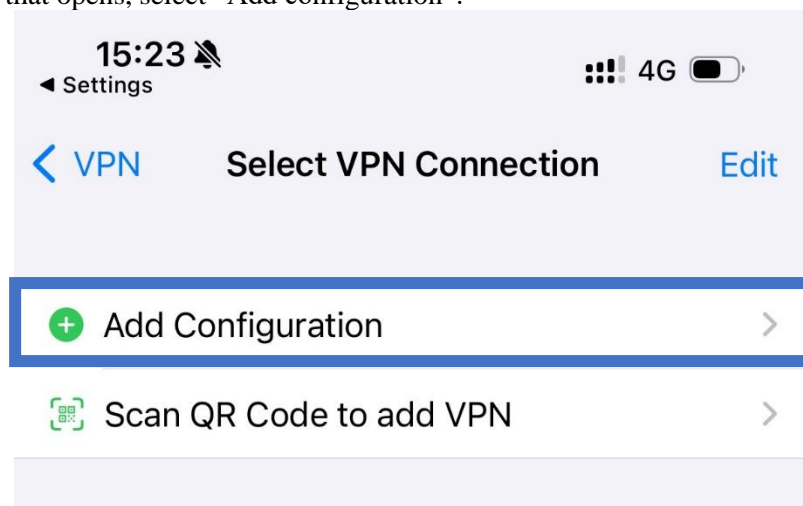

2. Once the FortiClient VPN app is installed and opened, the app will ask you to add VPN configurations to your phone. Select "Allow" to proceed.

3. Click the “Connection” box.

4. In the window that opens, select “Add configuration”.

5. Select the configuration and click “Save”.
In the Server Address field, be sure to enter vpn.vilniustech.lt, and if you check the SSO box and enter 443, your server address will automatically change.

The screenshot shows the 'VILNIUS TECH' VPN configuration screen. At the top, there is a status bar with the time 15:23, signal strength, 4G, and battery level. Below the status bar, there is a navigation bar with a back arrow, the text 'Settings', and a 'Save' button. The main title is 'VILNIUS TECH'. Below the title, there is a section titled 'VPN ACCOUNT INFORMATION'. The configuration details are as follows:

Secure Protocol	SSLVPN
Name	VILNIUS TECH
Server Address	https://vpn.vilniustech.lt:443
Add Server Address	+ (green plus icon)
SSO	<input checked="" type="checkbox"/> (green toggle)
Port	443

6. After saving the configuration you will see the following window, click on the VILNIUS TECH field to put a tick on the right side and return to the VPN window at the top.

The screenshot shows the 'Select VPN Connection' screen. At the top, there is a status bar with the time 15:23, signal strength, 4G, and battery level. Below the status bar, there is a navigation bar with a back arrow, the text 'VPN', and an 'Edit' button. The main title is 'Select VPN Connection'. Below the title, there are two options:

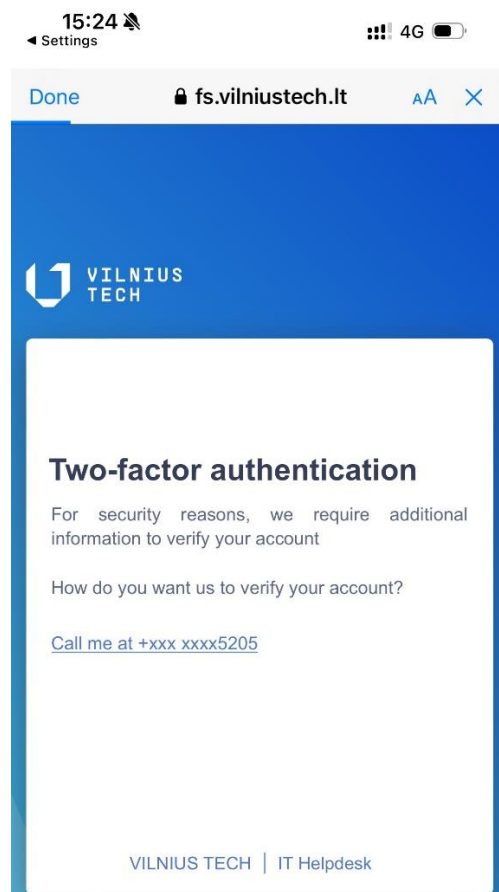

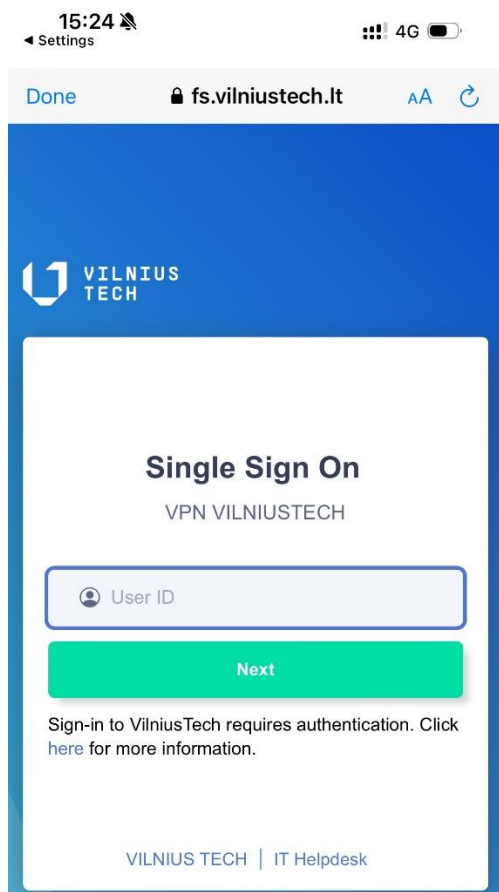

- + Add Configuration >
- Scan QR Code to add VPN >

Below these options, there is a section titled 'USER VPN GATEWAY'. The 'VILNIUS TECH' option is selected, indicated by a blue checkmark on the right side.

7. When you return to the main VPN window, you will see the name VILNIUS TECH under Connection. To connect to the VPN, click the Connect button.

8. VILNIUS TECH window will open, where you will be asked to enter your details (ID and password) and, in the next step, to authenticate using two-factor authentication (via call or app).

9. After a successful connection, you will see the following window on your phone screen:

When you're done with tasks that require a VPN, don't forget to click **Connect** again in the app to turn off the VPN.
