FortiClientVPNOnlineInstaller.exe 2.7 MB • Done

FortiClient Installer	
- Status Downloading image (4%)	Cancel

5. After installing the app, the following window will open. Accept the License Agreement and click Next. Then follow the steps as shown in the pictures.

## Completed the FortiClient VPN Setup Wizard

Click the Finish button to exit the Setup Wizard.

Once the installation process is complete, the following application will appear on your device's desktop:

6. Open the FortiClient VPN app and click Configure VPN.

7. In the window that opens, fill in the fields as shown in the image below and click Save. Edit VPN Connection

After saving the settings, you will see the following window. Click Connect.

8. A window will open where you have to enter your login details (employee/student ID and password) and log in by clicking "Sign in".

In the next step, you will have to confirm your login using a two-factor authentication method (call or app).

9. After authentication, the VPN will connect and you will see the following information on your screen:

When you've finished the work that requires a VPN, don't forget to click Disconnect.
