Wait until your grant is calculated by IRO:

☐ Grant calculated by IRO

Sometimes your traineeship will be funded by an LPK, in that case your grant agreement won't be filled in Mobility-Online and you will be informed about it by an email:

Dear student, your traineeship will be funded by the Erasmus+ program through the Lithuanian Confederation of Industrialists (LPK). The LPK is the coordinator of the PARTNERS 4 VALUE mobility consortium of universities, which includes VILNIUS TECH.

Please note that the only difference in this arrangement is that your financial agreement will be signed with LPK, and the scholarship will also be disbursed by LPK. You will be contacted by an email by their representative.

☐  Scholarship assigned from Lithuanian Confederation of Industrialists (LPK)

After your grant is calculated, press „*Download grant agreement*“ and review it:

After your documents are accepted, you shall receive the remaining part of your scholarship in a timely manner.

### **If you are a PhD student:**

Within 3 working days after your return you must prepare the „Traineeship Report“ for the Doctorate School. It is a short (up to 1 page) report approved by your supervisor at VILNIUS TECH about the results achieved during the traineeship.

The report includes the date of the trip (according to the rector's order), the location (where the internship or practical training was conducted) and a brief description of the research conducted on the topic of the dissertation.

**Send the report signed by you and your supervisor directly to [doktor@vilniustech.lt](mailto:doktor@vilniustech.lt)**

The report is free-form, it must be complete in Lithuanian language for Lithuanian students and in English for international students. You can see the example below:

Nuo 2020 m. rugsėjo mėn. 10 d. iki 2020 m. gruodžio mėn. 10 d. (tris mėnesius) stažavausi Balstogės technologijų universitete, Lenkijoje (lenk. Politechnika Białostocka). Stažuotės metu buvo įgyvendinti uždaviniai, kurie ženkliai prisidėjo prie disertacijos rengimo. Buvo išanalizuota literatūra cementinių kompozitų atsparumo šalčiui tema, atlikti malto ir trupinto stiklo, metakolino savybių tyrimai. Tyrimams atlikti buvo suformuotos 8 cementinių kompozitų bandinių partijos. Stažuotės metu atlikti cementinių kompozitų fizikinių, mechaninių savybių, atsparumo šalčiui tyrimai, mikrostruktūros analizė, taikant SEM mikroskopiją. Gauti tyrimų rezultatai bus panaudoti rengiant disertaciją ir straipsnį moksliniame žurnale. Be šių konkrečių uždavinių įgyvendinimo buvo užmegstas konstruktyvus bendradarbiavimas su Balstogės technologijų universiteto Statybinių medžiagų katedros mokslininkais.
